

All Saint's Marsh

Home Learning Offer

We are grateful for the feedback we received from parents and pupils about Home Learning in Key Stage Two. Now, we are very excited to share our home learning offer with you all!

Home Learning content (Autumn Term)

- Weekly, all children will be expected to complete Soundchecks or Garage on TTRS.
- Children will practice ten spellings per half term, which will be sent home. These will be tested in the final week of each half term.
- Each Half Term, children in KS2 will create a Reading project. This can be based on the whole class reading book or a pleasure book of their choice. To achieve this, little and often is most successful so we encourage daily reading with an adult.

How will the home learning be celebrated?

- During Celebration Assembly each week, TTRS certificates will be awarded for participation and results.
- Each Half Term, Key Stage Two children will hold an exhibition in the hall to share and celebrate their Reading project. Parents are warmly invited to attend too. Key Stage One children are also be invited to take part in the exhibition.
- More information will follow, but the dates for our Home Learning are:
 - o Wednesday 21st October
 - o Monday 14th December
 - o Thursday 11th February
 - o Monday 22nd March
 - o Thursday 27th May
 - o Friday 23rd July

These will begin at 2.30 and allow parents to visit the school and see our communities hard work.

Reading is the gateway to success, so read with your children and enjoy coming up with a creative project together. It can be anything! A filmed recreation, a costume, a model, a retelling, a comic... the possibilities are endless.

Support from school with home learning

- School adults will complete a reading project each too.
- Suggestions for projects will be shared with pupils, but they are very welcome to make their own creative suggestions.
- A lunchtime club slot per week will be allocated to time to work on Reading projects.
- On the week before the exhibition, a Reading for Pleasure lesson slot will be given to children to work on their project if they wish to at school.
- We will continue to support children in school with learning their times-tables and spellings, with daily practice.

Aims for progression

To best prepare children for secondary school, we aim to increase this home learning termly to include other subjects. As Year 6 approach their SATs, there may be some additional or altered home learning; this will be led completely by need.

Mr Waters and Mrs Perry-Bates launched the Reading Project in Worship this week and throughout this Half Term, other staff will be sharing their Reading Projects.
